[Nevada Revised Statute \(NRS\) 625.050](#) “Practice of professional engineering” defined.

1. “The practice of professional engineering” includes, but is not limited to:

(a) Any professional service which involves the application of engineering principles and data, such as surveying, consultation, investigation, evaluation, planning and design, or responsible supervision of construction or operation in connection with any public or private utility, structure, building, machine, equipment, process, work or project, wherein the public welfare or the safeguarding of life, health or property is concerned or involved.

(b) Such other services as are necessary to the planning, progress and completion of any engineering project or to the performance of any engineering service.

2. The practice of engineering does not include land surveying or the work ordinarily performed by persons who operate or maintain machinery or equipment.

[Nevada Revised Statute 625.520 3 + 4](#) Unlawful practice of engineering: Penalty; injunctive relief.

1. Except as otherwise provided in subsection 4, it is unlawful for:

(a) Any person not properly licensed or exempted in accordance with the provisions of this chapter to:

(1) Practice, continue to practice, solicit to practice, offer to practice or attempt to practice engineering or any discipline thereof;

(2) Employ, use or cause to be used the term “licensed engineer,” “professional engineer” or “registered engineer” or any combination, variation or abbreviation thereof as a professional or commercial identification, representation, claim, asset or means of advantage or benefit;

(3) Employ, use or cause to be used the term “engineer,” “engineering” or “engineered” or any combination, variation or abbreviation thereof in connection with a discipline of professional engineering for which licensure is required pursuant to this chapter as a professional or commercial identification, representation, claim, asset or means of advantage or benefit without disclosing that the person is not qualified, registered or licensed to practice that discipline of professional engineering in this state; or

(4) Directly or indirectly employ any means which in any manner tends or is likely to mislead the public or any member thereof that any person is qualified or authorized to practice engineering.

3. This section does not prevent a contractor licensed in accordance with the provisions of chapter 624 of NRS from using the term “engineer” or “engineering” if the term is used by the State Contractors’ Board in describing a specific classification.

4. The provisions of subparagraph (3) of paragraph (a) of subsection 1 do not apply to any corporation using such a term in its corporate name, if the corporation:

(a) Files its articles of incorporation with the Secretary of State; and

(b) Files with the Board a written statement signed by a corporate officer under penalty of perjury in which the officer states that the corporation:

(1) Is not practicing or offering to practice engineering in this state; and

(2) Will not do so unless it is licensed or exempted in accordance with the provisions of this chapter.

[Nevada Administrative Code 625.220](#) Disciplines of engineering. (NRS 625.140, 625.175)

1. Each applicant must specify the discipline of engineering in which he or she desires to be examined and licensed.
2. The Board will classify applicants in a manner which is reasonably consistent with custom in the profession. The Board may classify and examine an applicant in the basic discipline of engineering which is most closely associated with the applicant's area of concentration.
3. **An applicant may apply for licensure in the following disciplines of engineering:**
 - (a) Agricultural;
 - (b) Chemical;
 - (c) Civil;
 - (d) Control systems;
 - (e) Electrical;
 - (f) Environmental;
 - (g) Fire protection;
 - (h) Geological;
 - (i) Industrial;
 - (j) Manufacturing;
 - (k) Mechanical;
 - (l) Metallurgical and materials;
 - (m) Mining and mineral processing;
 - (n) Naval architecture and marine;
 - (o) Nuclear;
 - (p) Petroleum;
 - (q) Structural; or
 - (r) Any other discipline of engineering which the Board deems appropriate.
4. Each applicant must know the basic concepts of engineering in the fields of mathematics, physics, chemistry, statics, dynamics, strength of materials, fluid mechanics, electricity and magnetism, thermodynamics and economic analysis, and understand the application of these concepts in his or her specialized discipline of engineering.
