NRS 625.383  Stamp.

1. Each professional engineer and professional land surveyor shall obtain a stamp of the design authorized by the Board, bearing his or her name and license number and the legend “Professional Engineer” followed by the discipline for which he or she is qualified or the legend “Professional Land Surveyor,” respectively.

2. To facilitate the obtaining of a stamp by a professional engineer or professional land surveyor pursuant to subsection 1, the Board shall, upon request, provide its authorized design to any retailer or manufacturer of stamps. A professional engineer or professional land surveyor may obtain his or her stamp from any retailer or manufacturer of stamps.

3. A professional land surveyor shall not use the legend “Professional Engineer.”

NAC 625.610  Stamps, seals and signatures on documents; revision of original plans.

1. Upon being issued a license, each licensee may, at his or her expense, obtain a stamp or seal that conforms with the requirements of this section.

2. A person who is licensed in more than one discipline of engineering shall use a separate stamp or seal for each discipline, except that a person who is licensed in the disciplines of civil engineering and structural engineering may use a single stamp or seal for both disciplines. A stamp or seal must be approximately 1.7 inches in diameter and conform to one of the following designs, as applicable:

3. The impression made by a stamp or seal:

   (a) Must be opaque and permanent;

   (b) Must state the name of the licensee;

   (c) Must contain the license number of the licensee;

   (d) Must state the particular discipline in which the licensee is licensed; and

   (e) May state the expiration date of the license of the licensee.
4. Each licensee shall validate a stamp or seal by adding his or her signature legibly across the face of the impression made by the stamp or seal. The licensee shall also include the date of stamping or sealing and, if the stamp or seal does not include the date of expiration of his or her license, the date of expiration. The name of the licensee, the particular discipline in which the licensee is licensed and the license number of the licensee must be legible. Except as otherwise provided in NRS 427A.755, the licensee may not use a stamp to produce his or her signature.

5. When a licensee signs, stamps or seals a document containing the work of others, the licensee represents that the licensee has prepared or has been in responsible charge of the production of the entire document unless the licensee includes a written statement adjacent to his or her signature, stamp or seal identifying the portion of the document that the licensee prepared or for which the licensee had responsible charge of the work.

6. For the purposes of NRS 625.565, a professional engineer has “responsible charge of the work” and may sign, stamp or seal plans, specifications, plats or reports which were not prepared by the professional engineer:

(a) If the professional engineer personally supervises the work on the plans, specifications, plats or reports to the degree that he or she is satisfied that the work is completed in a proper and professional manner; or

(b) Where the plans, specifications, plats or reports are not prepared under his or her personal supervision, if the professional engineer or persons under his or her personal supervision review the plans, specifications, plats or reports and make tests, calculations or changes in the work as necessary for the professional engineer to determine that the work has been completed in a proper and professional manner.

7. A licensee who signs, stamps or seals a document which was not prepared by him or her but for which the licensee had responsible charge of the work is subject to disciplinary proceedings pursuant to chapter 625 of NRS for any errors in that document as if it was prepared by the licensee. This subsection does not exempt any other licensee who prepared the document from disciplinary action for his or her errors in that document.

8. Pursuant to NRS 625.565, all surveying maps and records, and all engineering plans, specifications, reports or other documents that are submitted to obtain permits, are released for construction or are issued as formal or final documents to clients, public authorities or third parties must bear:

(a) The signature of the licensee;

(b) The stamp or seal of the licensee;

(c) The date of signing; and

(d) The expiration date of the license of the licensee.

9. If the license of a licensee expires after the licensee submits, releases or issues a document described in subsection 8, the licensee is not required to sign, stamp or seal the document again to include an updated expiration date of the license unless changes are made to the document after the document is submitted, released or issued.
10. A licensee with responsible charge of the work contained in a document described in subsection 8 may have an electronically prepared seal and digital signature applied to such a document which is electronically submitted, released or issued only if:

(a) The files containing the document are locked electronically to prevent any changes to the document;

(b) Secure encryption methods are in place to prevent the copying, transferring or removing of the seal and digital signature and to prevent changes to any electronic drawings after the document is submitted, released or issued; and

(c) The licensee believes adequate protections are in place to prevent fraud or misuse of the digital signature.

11. If an agency reviewing an interim document, other than a document listed in subsection 12, requires a licensee to stamp the interim document, the document must be clearly marked in substantially the following manner to show the intended purpose of the document:

(a) “For review only”;

(b) “Not for construction”; or

(c) “Preliminary.”

12. A licensee is not required to stamp the following documents:

(a) An engineering as-built plan or record plan;

(b) A report which includes observations concerning the progress of the construction of a project;

(c) An estimate of the costs of a project; or

(d) A shop drawing that is not required by the specifications of a project.

13. A licensee may revise original plans prepared by another licensee only if:

(a) The licensee proposing to revise the plans:

(1) Obtains the consent of the licensee who prepared the original plans; or

(2) Made every reasonable effort to notify and obtain the consent of the licensee who prepared the original plans and the licensee proposing to revise the plan is part of the same firm that prepared the original plans;

(b) The proposed revisions are within the scope of practice of the licensee proposing to revise the plans;

(c) The licensee proposing to revise the plans assumes full responsibility for those revisions and the effects of those revisions upon the remainder of the project; and

(d) The revisions to the original plans comply with applicable state and local laws.
