

**NAC 625.410 Expiration and renewal of licensure.** ([NRS 625.140](#), [625.390](#), [625.395](#), [625.397](#))

1. The fee for a biennial renewal of a single license is \$100.
2. The first letter of the surname of a licensee determines the last date on which a licensee may pay his or her renewal fee, as set forth in the following schedule:

A through E - January 1 of each odd-numbered year.

F through K - July 1 of each odd-numbered year.

L through R - January 1 of each even-numbered year.

S through Z - July 1 of each even-numbered year.

3. The Board will prorate the initial license fee paid by a licensee as necessary to provide a biennial renewal period for the licensee that is consistent with the schedule set forth in subsection 2. A person who is licensed in more than one professional category or discipline of engineering must pay the full renewal fee for the first classification and one-half of the renewal fee for each additional classification. No licensee will be charged more than \$200 in a biennium for the renewal of his or her licenses.

4. If a licensee does not renew his or her licensure by the appropriate date set forth in subsection 2, the licensure expires and he or she is not licensed to continue to practice. A former licensee whose licensure has expired because of a failure to pay the renewal fee may renew his or her licensure within 6 months after the date of expiration by paying the renewal fee and a late charge of \$100.

5. A licensee whose license has been expired for more than 6 months:
- (a) Must reapply for licensure and pay the appropriate license fee.
  - (b) May be required to appear before the Board.
  - (c) May be required to pass a written or oral examination.
  - (d) May be required to submit proof to the Board of the completion of 30 professional development hours.
