

Category 3: Proposed Repeals or Amendments of Miscellaneous Regulations

Small Business Impact Statement

Small Business Impact Statement for proposed repeals and amendments to regulations relating to:

Miscellaneous Regulations – NAC 625.460; NAC 625.620; NAC 625.625; NAC 625.635

Summary

The State Board of Professional Engineers and Land Surveyors has determined that the proposed repeals and amendments will have no negative financial impact on a small business and in some circumstances will likely have a beneficial impact. The proposed regulations have no negative impact on the formation, operation, or expansion of a small business in Nevada.

A small business is defined in Nevada Revised Statute (NRS) 233B as a “business conducted for profit which employs fewer than 150 full-time or part-time employees.”

This small business impact statement was created pursuant to NRS 233B.0608(3) and complies with the requirements of NRS 233B.0609. As required by NRS 233B.0608(3), this statement identifies the methods used by the agency in determining the impact of the proposed regulations on a small business and provides the reasons for the conclusions of the agency followed by certification by the agency’s responsible person.

Background

The proposed repeals and amendments reduce regulations by eliminating outdated and unnecessary regulations. The rationale for each of the proposed repeals is described in the following:

Miscellaneous Regulations

[NAC 625.460](#)

→ Recommending repeal of this regulation because it is outdated. The Board’s online license renewal system (put into operation in 2015) clearly states the license expiration date, whether a licensee chooses active or inactive status at time of license renewal. The second sentence is already covered by NAC 625.420.

[NAC 625.620](#)

→ Recommending repeal of this regulation because it is outdated. The Board’s online firm registration process requests the same information that would be included in a “certificate of fictitious name”. The Board requires a Nevada Business License as part of its firm registration and in obtaining a Nevada Business License, a firm would be required to file a certificate of

fictitious name in the form required by chapter 602 of NRS with the Nevada Secretary of State's office.

NAC 625.625

→ Recommending repeal of this regulation because it is outdated. Contact information is already addressed in NAC 625.615, and any change relating to discipline of engineering or land surveying is information that is collected at the time of license renewal and no additional notification is required.

NAC 625.635

→ Recommending repeal of this regulation as it states the obvious and it does not need to be in regulation, especially in consideration, as stated in item 1, a party can be represented by any person he/she designates.

Manner in which comments were solicited, response summary, and explanation of how interested parties may obtain a copy of summary

Referencing the requirements of NRS 233B.0608, the Nevada Board of Professional Engineers and Land Surveyors requested input via a survey link sent to all Nevada licensed engineers and land surveyors, and those signed up to receive news and information from the board. The emailed survey link was sent to 18,500 individuals.

The survey asked for input on adverse/beneficial economic effects on small businesses, and indirect adverse/beneficial effects – with space to elaborate on responses.

A summary of the survey results is available for viewing on the Nevada Board of Professional Engineers and Land Surveyors website (see link below) and are included as an attachment.

<https://nvbpels.org/business-impact-survey-results-2023/>

Manner in which the analysis was conducted

Survey results were initially reviewed for general comments to gauge if the intent of the proposed regulation changes was adequately conveyed.

Survey analysis then focused on “YES” responses relating the direct and indirect adverse economic effects, and the associated comments and explanations to determine the individual concerns. The same was done with survey results for the direct and indirect beneficial impacts.

1. Estimated economic effects of the proposed regulation on small businesses

Based on the survey results, there are no adverse economic impacts related to the proposed repeal and amendment of the listed miscellaneous regulations.

2. Considerations were made to reduce impact of proposed regulation

The proposed repeal and amendment of the listed miscellaneous regulations was put forward to lessen regulatory burden. No adverse impacts were identified that warranted additional consideration.

3. Cost estimate for agency enforcement

At this time there would be no additional cost to the regulatory board to enforce the proposed amendments. Any issues relating to compliance would be absorbed into the existing workload of the current staffing levels.

4. New fees or increases in existing fees

The proposed amendments do not involve an increase to existing fees or create any new fees.

5. Are any duplicative or more stringent provisions involved

There are no federal regulations associated with professional engineers and land surveyors. However, every state and US territory regulates the professions of engineering and land surveying.

6. Summary of conclusions

The proposed repeal and amendment of the listed miscellaneous regulations will have no adverse impacts on small businesses.

Certification by Person Responsible for the Agency

I, Patty Mamola, Executive Director of the Nevada Board of Professional Engineers and Land Surveyors certify to the best of my knowledge or belief, a concerted effort was made to determine the impact of the proposed amendments to regulation on small business, and the information contained in this statement was prepared properly and is accurate.
